About

Additive International is the premier event for additive manufacturing, showcasing next-generation technology and the latest thinking, providing a forum for practitioners to build their networks and drive innovation.

Founded in 2006, Additive International (formerly known as the International Conference on Additive Manufacturing & 3D Printing), is a two-day event bringing together academic and industry experts to share their knowledge and ideas. The summit attracts over 250 delegates from more than 170 institutions, with interests in all the newest technological developments for the AM industry.

Additive Manufacturing has experienced a 'coming of age' in recent years, with the global market expected to grow from \$12.6 billion in 2020 to over \$37 billion by 2026*. 3D printing proved its worth during the pandemic in mass producing parts for ventilators, PPE and other life-saving devices.

Meeting in-person for the first time in two years, Additive International is the essential meeting-place for everyone involved in this rapidly evolving sector.

(*Statista, Additive manufacturing and 3D printing - statistics & facts, October 2021)

Agenda

The two-day conference and exhibition features a roster of some of the world's leading experts on Additive Manufacturing.

Previous speakers include:

DESIGN
TECHNICAL
AUTHORITY
Airbus

MATERIALS
SCIENTIST
Los Alamos
National
Laboratory

HEAD OF
DEPARTMENT
Swatch Group

DEVELOPMENT
SCIENTIST
Advanced
Remanufacturing
and Technology
Centre

// The conference provided many opportunities for networking and meeting key people in the industry. I have made some very valuable contacts and they will definitely help shape my path forward //

Michaella Janse van Vuuren, Nomili

Why exhibit?

Additive International places your company in a dynamic, positive environment, enabling you to develop new business contacts, grow your brand and meet face-to-face with and international community of AM leaders. By sponsoring this event this event your business will benefit from the following:

- Highly focused exhibition held in conjunction with the industry-leading conference programme
- High-level attendees will provide your business with a live platform to engage with a total of over 250 qualified AM professionals
- Use the power of this live event platform to interact with customers and stakeholders from across the industry, launch new solutions, build partnerships and generate significant brand awareness at the highest level
- Gain access to our custom database of over 47,000 senior manufacturing and engineering leaders.

// The conference was extremely well planned and executed. I would recommend attendance for anyone looking to be involved in the AM industry. The quality of content was exceptional. //

Daniel Hudson, Voestalpine High Performance Metals UK Ltd

Additive INTERNATIONAL

The global summit for Additive Manufacturing and 3D Printing

13 - 14 July 2022 • Nottingham, UK

Sponsor Opportunities

HEADLINE SPONSORSHIP

£10,000

3x2 tabletop stand

Branding campaign on the website and all marketing collateral before, during and after the event to our database of 47,000 industry leaders

Video interview with one of our editors before the event

Dedicated breakout space at the event for meetings

Access to the delegate list post event

EVENT SPONSOR

£5,000

3x2 Tabletop stand position

Branding campaign on the website and all marketing collateral before, during and after the event to our database of 47,000 industry leaders

Access to the delegate list post event

TABLETOP SPONSOR

£2,500

3x2 tabletop stand

Branding on the website and in the run up to the event
