

Exhibition and Sponsorship Opportunities

Background to the Event

This event is now established as one of the world's leading knowledge transfer and networking events focused solely on the production of end-use components using additive 'layer-based' technologies. Hosted by the Centre for Additive Manufacturing (CfAM) based at the University of Nottingham and jointly organised in conjunction with Added Scientific Ltd, the event attracts over 250 delegates from around the globe and brings together researchers, vendors and end users of additive technologies. The 2019 summit will focus on AM process and materials development, business & retail strategy for AM products, supply chain management and process modelling developments.

Additive International attracts both experienced AM technology users from industry and academia and organisations looking to procure new technologies, materials and services. Sponsoring and exhibiting at our event represents an excellent opportunity to strengthen your brand, promote your products and services and explore new business opportunities.

EXHIBITION STAND OPPORTUNITIES

Prices start from £900 + VAT

To compliment the summit, a parallel exhibition area has been set aside for delegates to network with technology and materials vendors.
